

Project 25 Compliance Assessment Program
Recognized Laboratory

The DHS Office for Interoperability and Compatibility recognizes
RF Communication Division, Harris Corporation
Lynchburg, VA, United States
for technical competence in the field of
Project 25 Compliance Testing

This laboratory is recognized in accordance with the National Institute of Standards and Technology Handbook 153: Laboratory Recognition Process for Project 25 Compliance Assessment. This recognition demonstrates technical competence for a defined scope and the operation of a laboratory quality management system. For the types of tests to which this recognition applies, please refer to the laboratory's P25 Compliance Testing Scope of Recognition.

Presented July 9th, 2009

Bradley I. Buswell
Under Secretary (Acting)
Science and Technology Directorate
U.S. Department of Homeland Security
Certificate Number P25CAP081017-09
